

The background is a gradient of green and blue, transitioning from a lighter green at the top left to a darker blue at the bottom right. It features several abstract circular elements: a large scale on the left with numbers from 140 to 260, and several smaller circles with arrows indicating clockwise or counter-clockwise rotation. The overall aesthetic is technical and scientific.

Mengenal Berbagai Flora melalui NaturalHistory Web & Apps

Raihan Dwi Pratama

Subjek Penelitian

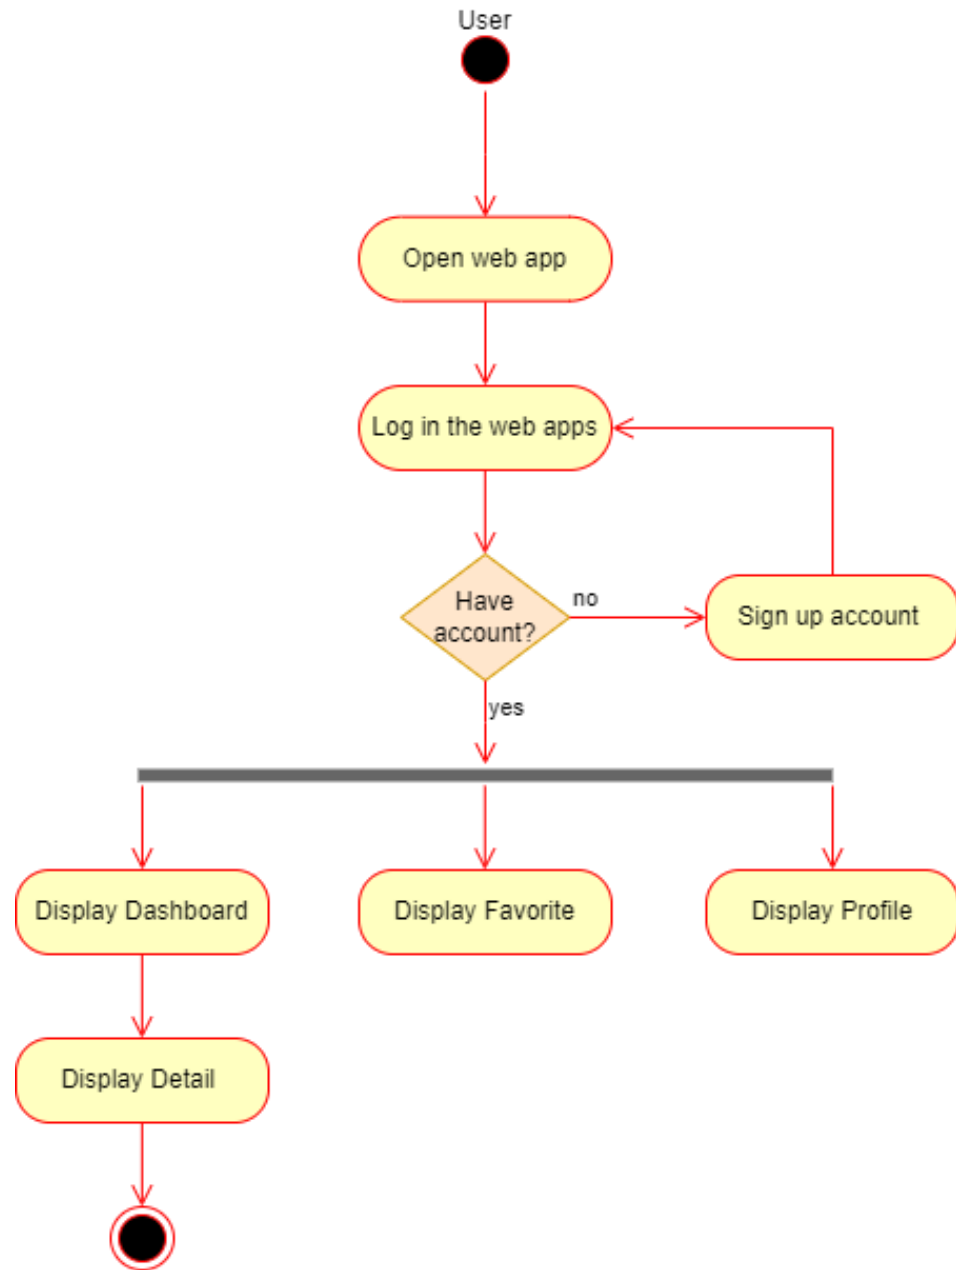

Subjek penelitian yang akan saya gunakan dalam pembuatan web apps ini, yaitu seorang Botanisi. Dimana seorang Botanisi ini mempelajari tentang tumbuh-tumbuhan, jamur, dan alga, dengan mikologi dan fikologi.

Namun, sang Botanisi belum mempublikasi dan segera ingin mempublikasi hasil penelitian yang telah ia lakukan. Oleh karena itu dibuatlah web apps yang diberi nama "NaturalHistory", yang digunakan untuk mempublikasi hasil penelitian sang Botanisi.

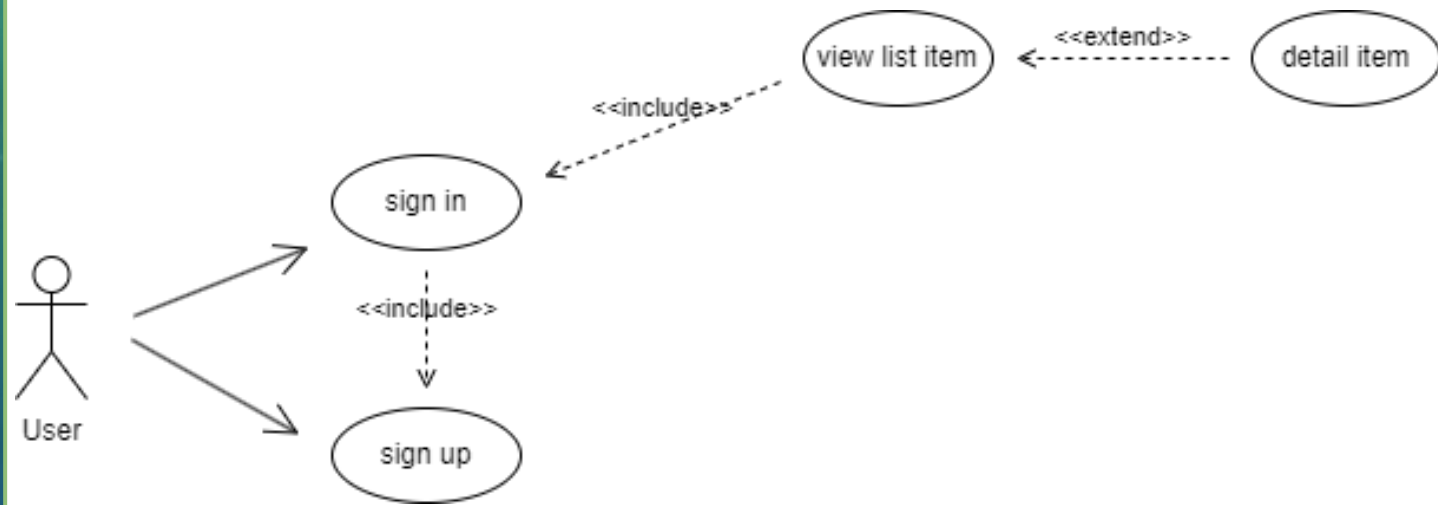

Bisnis Proses

- User harus melakukan sign in terlebih dahulu, jika ingin masuk kedalam web apps NatureHistory.
- User harus memiliki akun. Jika tidak, maka harus daftar ke menu sign up.
- User dapat melihat list item, dari penelitian yang ada di web apps.
- User dapat melihat detail item, setelah melakukan klik terhadap item yang ada di list item.

Find **knowledge** that interests you,

Here there is a lot of knowledge about flowers, both ornamental flowers and flowers that are only available in nature.

Snowdrop Flowers

Naturally dried Achillea ptarmica and Panicum grass.

Galanthus, or snowdrop, is a small genus of approximately 20 species of bulbous perennial herbaceous plants in the family Amaryllidaceae. The plants have two linear leaves and a single small white drooping bell-shaped flower with six petal-like tepals in two circles. The smaller inner petals have green markings.

Scientific name: Galanthus

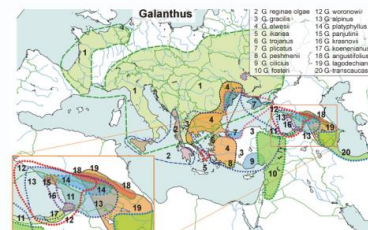

Rank: Genus

Family: Amaryllidaceae

Kingdom: Plantae

Order: Asparagales

Tribe: Galantheae
